## Reading comprehension

### A new mobile

Alan's wife bought him an iPhone for his fiftieth birthday, something he has been reluctant to buy for years. He loved his old mobile, because it was not complicated to use. For the first time in his life, he can take pictures, record videos, access the Internet, download his maps, play music, and send and receive text messages using the latest apps like 'Whatsapp'. Sadly, Alan has no idea how to use all the features on his new iPhone. He decided to sit down and read all the instructions, but he found them so difficult, he did not understand them. He read the instructions a second time, but as before, nothing made sense. Alan's wife told him to ask a friend at work to show him how to use his new mobile, but Alan does not want to ask for help. He hates the idea that his co-workers might think he is not good with technology.

---

**Answer the following questions:**

**1. What was Alan given on his birthday?**

.....

**2. How old was he?**

.....

**3. What was his problem?**

.....

**4. Did the instructions help?**

.....

**5. Will Alan ask for help?**

.....

**6. Do you think it is necessary to have a cell phone? Why?**

.....
